

Eevo-Therm Trend Bottle

Our colourful new Eevo-Therm Trend collection offers you a choice of vibrant colours from stock in a stylish satin finish. Eevo-Therm bottles are of a retail plus standard and are made from high quality 304 food grade stainless steel. The double walled construction keeps liquids hot for up to 12 hours and cold for up to 24 hours. All bottles are a satin finish and available in: Black, Purple 268u, Green 360u, Navy 281u, Process Cyan, Orange 021u (approx), Grey 425u & Process Magenta. Supplied with a silver lid as standard. Pick and mix your bottle colour, contact us for more info on this.

Packaging Details:	400 x 780 x 300mm
Carton Weight:	20Kg
Standard Packaging:	White box
Alternative Packaging:	Printed Sleeve, Presentation Tube

Recommendations and Limitations

Hand wash only. Do not use in a microwave oven. Please wash mug before use.

QR Codes - Please note that the print process and substrates used in the production of this item may not always allow QR codes, if present on your artwork, to function correctly. When approving your proof, you are accepting that this may be the case and as such accept full liability for any malfunction of the QR code.

Ideal For: Tourist Attractions, Builders Merchants, Councils, The Office and Home, Educational Organisations

Evo-Therm Trend Bottle

Sizes available: 250 x 67mm diameter

We can accept artwork by disk, email or you can upload onto our FTP site. Please contact us for details.

Programs:

Mac: QuarkXpress 7, Illustrator, PhotoShop, and Adobe In Design.

PC: PhotoShop and Adobe InDesign

Please supply us with:

- Finished version of the artwork.
 - All of the source files used to create the finished version, including all high resolution scans, all screen and printer fonts
- Label the disk with job title and return address.

All artwork supplied must be fully editable. The finished version should be supplied as a CYMK file (plus spot colour separations.)

Please note text must be no smaller than 8pt (15pt for etched mugs) and reversed out text should be larger and in bold.

Emailed artwork must be clearly labelled with your order number and company name in the reference line, or supplied on CD with the same information clearly marked. 4 colour process artwork needs to be 300dpi or higher.

Supply a print out:

Black and white or from a low-cost colour printer using the right file, not an earlier version. Label with PMS references for all corporate colours or other critical colour matches. Supply colour samples or swatches at the outset. Customer supplied printouts cannot be matched because there is no consistency of calibration between their machine and our press.

For Screen Printed designs please supply the following:

- Editable EPS file
- Image saved at 100% size or larger
- Pantone® references supplied for colours
- Fonts supplied or text saved as curves

Due to nature of this product tight registration may be difficult - registration may move by up to 3mm on screen print.

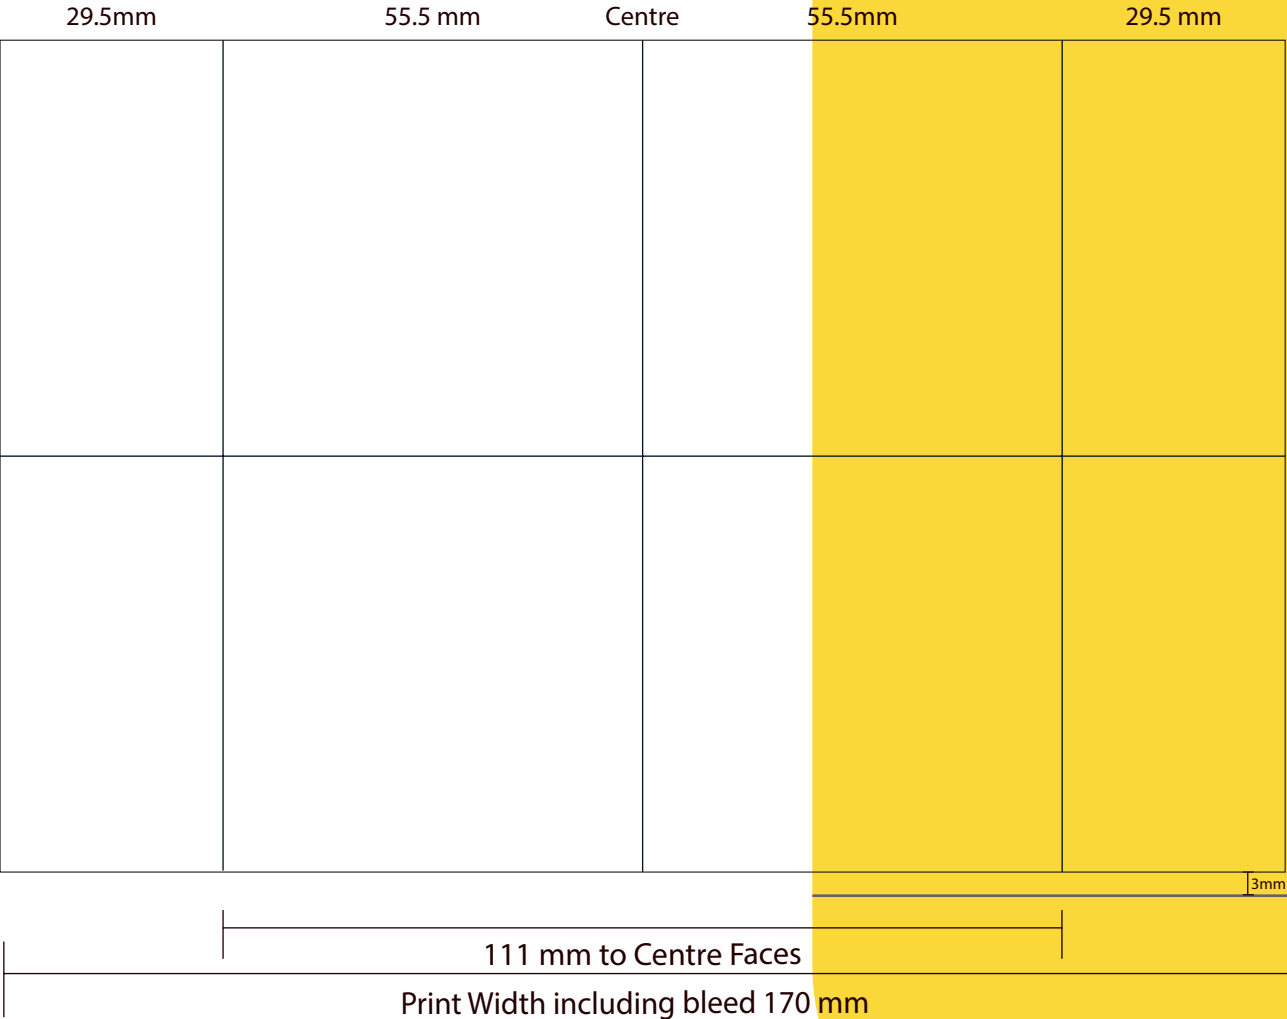

If you would like further information regarding a specific design, please feel free to contact us

See the following page(s) for the artwork templates for this product.

All information correct at time of publication. Whilst we endeavour to maintain the accuracy of this document, details may change without notice.

Any part of the artwork that shows white here on your proof, including text, logos and backgrounds to images will show as the silver of the product showing through.
Dye sublimation uses CMYK ink and there is no white in this process.
On a metal product the end result will be a metallic lustre effect.
